## Journal Information

|               |                                                   |
|---------------|---------------------------------------------------|
| Journal Title | Canadian Journal of Statistics                    |
| Publisher     | Wiley-Blackwell                                   |
| ISSN          | 0319-5724                                         |
| E-ISSN        | 1708-945X                                         |
| Database      | SCOPUS                                            |
| Domain        | Life Sciences, Physical Sciences, Social Sciences |

## Classification History

| Year      | A+ | A | B | C |
|-----------|----|---|---|---|
| 2026      |    | ✓ | ✓ |   |
| 2025      |    | ✓ | ✓ |   |
| 2024      |    | ✓ | ✓ |   |
| 2023      |    | ✓ | ✓ |   |
| 2021/2022 |    | ✓ | ✓ |   |
| 2020      |    | ✓ | ✓ |   |
| 2019      |    | ✓ | ✓ |   |
| 2018      |    | ✓ |   |   |

**Classification:** The table above shows all journal classifications recorded for each classification year in the Green Journals database. A journal may have more than one classification in the same year.

## Recent Articles

|                                                                                                                                                                                                                            |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Order restricted row-column cluster randomized design</b><br>2026-10-28<br>Authors: Dalton Hopper, Omer Ozturk, Olena Kravchuk<br>DOI: 10.1002/cjs.70077                                                                |
| <b>&lt;i&gt;Z&lt;/i&gt; -residuals diagnostics for Cox models: Functional-form misspecification versus nonproportional hazards</b><br>2026-10-26<br>Authors: Tingxuan Wu, Cindy Feng, Longhai Li<br>DOI: 10.1002/cjs.70087 |
| <b>The life and work of Ernest Sydney Keeping</b><br>2026-10-22<br>Authors: David R. Bellhouse, Christian Genest<br>DOI: 10.1002/cjs.70078                                                                                 |
| <b>Model selection for causal inference in missing exposure problems</b><br>2026-10-21<br>Authors: Yuliang Shi, Yeying Zhu, Joel A. Dubin<br>DOI: 10.1002/cjs.70084                                                        |
| <b>An efficient subsampling algorithm for big data with interaction effects under measurement constraints</b><br>2026-10-19<br>Authors: Jie Yin, Bo Hu, Fasheng Sun<br>DOI: 10.1002/cjs.70081                              |

|                                                                                                                                                                             |                                                                                                        |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| <b>Learning sparse mixture-of-experts generalized linear models in ultrahigh dimensions</b>                                                                                 | 2026-10-8<br>Authors: Pengqi Liu, Abbas Khalili<br>DOI: 10.1002/cjs.70080                              |
| <b>Extreme conditional quantile estimation for time series</b>                                                                                                              | 2026-9-27<br>Authors: Yuri Goegebeur, Armelle Guillou, Jing Qin<br>DOI: 10.1002/cjs.70072              |
| <b>Mitigating measurement error in misspecified small area models</b>                                                                                                       | 2026-9-17<br>Authors: Diego Battagliese, Serena Arima, Brunero Liseo et al.<br>DOI: 10.1002/cjs.70079  |
| <b>Irregular visits in longitudinal studies: Comparing inverse intensity of visit weighting and imputation in a causal analysis of antidepressant therapeutic treatment</b> | 2026-9-14<br>Authors: Janie Coulombe, Erica E. M. Moodie, Susan M. Shortreed<br>DOI: 10.1002/cjs.70082 |
| <b>Lasso for hierarchical polynomial models</b>                                                                                                                             | 2026-9-10<br>Authors: H. Maruri-Aguilar, S. Lunagómez<br>DOI: 10.1002/cjs.70075                        |
