

## Journal Information

|               |                                                                    |
|---------------|--------------------------------------------------------------------|
| Journal Title | JOURNAL OF LIPOSOME RESEARCH                                       |
| Publisher     | TAYLOR & FRANCIS LTD                                               |
| ISSN          | 0898-2104                                                          |
| E-ISSN        | 1532-2394                                                          |
| Database      | Clarivate                                                          |
| Domain        | Health Sciences, Life Sciences, Physical Sciences, Social Sciences |

## Classification History

| Year      | A+ | A | B | C |
|-----------|----|---|---|---|
| 2026      |    | ✓ | ✓ |   |
| 2025      |    | ✓ | ✓ |   |
| 2024      |    | ✓ | ✓ |   |
| 2023      |    | ✓ | ✓ |   |
| 2021/2022 |    | ✓ | ✓ |   |
| 2020      |    | ✓ | ✓ |   |
| 2019      |    | ✓ | ✓ |   |
| 2018      |    | ✓ |   |   |

**Classification:** The table above shows all journal classifications recorded for each classification year in the Green Journals database. A journal may have more than one classification in the same year.

## Recent Articles

|                                                                                                                                                                                                                                                                                        |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>pH-triggered liposomal delivery of alendronate enables acid-responsive drug release and improves osteoblast viability</b><br>2026-10-13 Pages 1-18<br>Authors: Kevin López Barrios, David Octavio Tovar Anaya, Rafael Arturo Zubillaga et al.<br>DOI: 10.1080/08982104.2026.2744269 |
| <b>Critical factors influencing the precise ultrasound-mediated production of lipid nanoparticles</b><br>2026-10-11 Pages 1-11<br>Authors: Christopher Sánchez-Vega, Ramon Barnadas-Rodríguez<br>DOI: 10.1080/08982104.2026.2742362                                                    |
| <b>Pulmonary delivery of ivacaftor <i>via</i> proliposomal dry powder inhalers for cystic fibrosis therapy</b><br>2026-10-6 Pages 1-12<br>Authors: Akanksha Kasture, Himanshu Paliwal, Nilesh Chaudhari et al.<br>DOI: 10.1080/08982104.2026.2738469                                   |
| <b>Engineering and optimization of microfluidic platforms for phospholipid-based ocular drug delivery</b><br>2026-10-6 Pages 1-30<br>Authors: Shakila Dikowita Kankanamlage, Thilini Thrimawithana, Francisco J. Tovar-Lopez<br>DOI: 10.1080/08982104.2026.2740639                     |

|                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Liposomal nanoparticle mediated gene modulation for the treatment of melanoma in murine models</b><br>2026-10-1 Pages 1-13<br>Authors: Poonam Yadav, Patience J. Kelly, Santosh K. Mandal et al.<br>DOI: 10.1080/08982104.2026.2738804                                     |
| <b>Pharmacokinetic comparisons between liposome formulation and non-liposome formulation of omega-3 fatty acids: a randomized clinical study</b><br>2026-10-1 Pages 1-10<br>Authors: Yun Seob Jung, Ae Gyeoing Im, Sung Dae Kwon et al.<br>DOI: 10.1080/08982104.2026.2721669 |
| <b><math>\alpha</math>-Tocopherol-loaded freeze-dried liposomes and proliposomes: powder properties and thermal performance</b><br>2026-9-30 Pages 1-8<br>Authors: Jiyeon Lee, Hye Won Kim, Hyeon Gyu Lee et al.<br>DOI: 10.1080/08982104.2026.2740627                        |
| <b>Lipodisks for dual delivery of pirarubicin and melittin: physicochemical properties and <i>in vitro</i> evaluation</b><br>2026-9-28 Pages 1-13<br>Authors: Luís Silva, Wahida Rahaman, Sajid Ali et al.<br>DOI: 10.1080/08982104.2026.2738451                              |
| <b>Optical assay interference and temporal redox retention in liposome-associated Trolox under mixed-metal stress</b><br>2026-9-19 Pages 1-13<br>Authors: Hasan Saygin, Montaser N. A. Ramadan, Asli Baysal et al.<br>DOI: 10.1080/08982104.2026.2735841                      |
| <b>Reduction-responsive cationic bolaamphiphile vesicles as a versatile platform for photodynamic and chemotherapeutic delivery</b><br>2026-9-2 Pages 1-12<br>Authors: Begoña Bedrina, César A. Angulo-Pachón, Francisco Galindo et al.<br>DOI: 10.1080/08982104.2026.2726858 |
